

- ◆ Freedom to vote via touch
- ◆ Freedom to use as Ballot Marking Device
- ◆ Freedom to incorporate ballot populated in advance from smart phone or tablet device
- ◆ Freedom to interface with industry known poll books
- ◆ Freedom to use as ADA Compliant Device
- ◆ Freedom for disabled voter to vote “using the same methodology and equipment” as sighted voter
- ◆ Freedom to use Screen Reader mode for disabled voters
- ◆ Freedom to use as an Early Voting, Election Day Vote Center and Walk-in Absentee solution
- ◆ Freedom to set on table or in custom, privacy voting booth

OpenElect FreedomVote (FVT) provides voters the option to initialize their ballot by scanning the bar code created by a poll book, navigate through the ballot like a touchscreen, use a custom designed braille encoded keypad or populate your ballot by scanning a bar code from your personal electronic device.

FreedomVote accommodates voters in Early Voting, an Election Day Vote Center and multiple precinct voting locations. FreedomVote is fully HAVA compliant and produces a printed ballot which may be reviewed by the voter prior to being scanned via secure tabulation using the OpenElect® Voting Optical Scan (OVO®) or the OpenElect Voting Central Tabulation System (OVCS).

**HOW IT WORKS:**

**Voter checks-in and receives a barcode from pollbook to initialize their ballot**

**Vote via personal electronic device, touchscreen or keypad**

**Voter receives a printed ballot to insert into an OVO to cast the vote**

## Americans with Disabilities Act (ADA) Features

- Optional: HAVA compliant keypad, sip-n-puff, zoom-in ballot and multi-lingual audio functionality
- Allows voters to prepare ballots independently and privately
- Allows voters to correct mistakes (second chance voting)
- Incorporates Screen Reader mode

*Millions of voters have securely and easily cast their votes using Unisyn Voting Solutions*

## High Levels of Security

The FVT contains the same high level of security as all OpenElect Products. Physical measures, coupled with comprehensive procedures, ensure proper and effective security and integrity of equipment during preparation, testing and use.

## Flexibility in Program Design and Support Services

Resources, best practices and leading-edge technology provides our clients with the skills and tools needed to efficiently conduct elections.

## Features and Benefits

- Supports multiple languages
- Rank Choice Voting (RCV)
- Modular design provides easy transport and storage
- Easy to set up, open and close polls
- Ballots are printed in easy to read format for review
- Audio ballot review technology
- Ballots are compatible with OpenElect Voting Optical Scan
- Produces complete precinct audit logs and reports

## Service and Support:

- Pre-Election Support
- Results Reporting
- Media Support
- Voter Education
- Administration Management
- Technical Support
- Maintenance
- Printing
- Supplies

**Unisyn Voting Solutions** was the *first* Company to offer a precinct based digital optical scanning system certified to the 2005 Voluntary Voting System Guidelines set forth by the U.S. Election Assistance Commission (EAC). We have maintained that technology leadership position with the introduction of the FVT.

Our OpenElect suite of products provides a wide array of equipment choices which allows us to provide the perfect match for the way you want to conduct your elections.
