FOR IMMEDIATE RELEASE

**Ashland County, Ohio Partners with RBM and Unisyn Voting System**  
*Enables Ashland County to continue conducting fair and successful elections.*

Chicago, IL – April 24, 2017 - RBM Consulting, a national leading election solutions and managed service provider is Ashland County, Ohio's new election equipment and service partner. Ashland County has 37,000 registered voters, 39 precincts and 22 polling locations.

Ashland County will be deploying the Unisyn Voting System's paper ballot based system in the next election. "The ease of use for both Precinct Election Officials and voters should make for an easy transition from the electronic voting units," said Director of Elections, Shannon Johnson. "We appreciate the attention to detail and personalized service demonstrated by RBM and look forward to a long and positive relationship."

"RBM is proud to partner with Ashland and Holmes counties to provide state of the art election hardware and software systems that not only meet today's requirements, but provide the necessary flexibility and functionality to meet future requirements whatever they may be," said Dan Brennan, Co-founder of RBM Consulting.

The RBM and Unisyn partnership delivers election products and services tailored to fit all jurisdictions' election requirements. The combined experience of the two companies brings counties extensive election experience, a highly-knowledgeable and trained staff, and full-service and support.
