FOR IMMEDIATE RELEASE

Holmes County has Efficient Election Day with New Voting Equipment
Equipment purchased from Unisyn and RBM Consulting results in zero problems during the March 15th primary.

Chicago, IL – May 16, 2016 - RBM Consulting, a national leading election solutions and managed service provider, supplies election equipment and services to Holmes County, Ohio. Holmes County has over 17,484 registered voters and 17 precincts.

Holmes County recently partnered with RBM Consulting and implemented the Unisyn Voting System prior to their March 15, 2016 Primary. The voters found the system to be easy to use and the transition seamless. “The equipment is very simple for precinct election officials (PEO’s) to open and close voting. The PEO’s have a great deal to remember, so it was great that they did not have to stress with complicated set up of the voting equipment”, said Lisa Welch, Holmes County Director of Elections. “We especially like the fact that voting can continue even during a power outage. The auxiliary bin is easy for PEO’s and voters to understand and use.”

All 17 precincts reported zero problems opening the polls, daily operation of the equipment and delivering the voting results to the office after the close of the polls on election night. Holmes County purchased the optical scan precinct based OVO tabulators and OVI-ADA voting solution. “We were excited to learn there weren’t any calls received by the County related to the voting system all day. This success is a true testament to the dedicated County staff & PEO’s, Unisyn Voting System and experienced RBM staff to pull this off. We truly look forward to continued successful elections in the future,” said Dan McGinnis, Co-Founder and President of RBM Consulting.

Holmes County also contracts other election services through RBM including ballot printing, software support, logic and accuracy testing support and election day/post-election day support.

The RBM and Unisyn partnership delivers election products and services tailored to fit all jurisdictions’ election requirements. The combined experience of the two companies brings counties extensive election experience, a highly-knowledgeable and trained staff, and full-service and support.
